

March 7, 1973

telephone, then I'd like to make a brief report. When you come to our Methodist Church and the minister is giving a sermon, you want to be extremely prepared for that punch line, then I'd like to include with that thought, to a report on the Newman Grove Hospital, I'd like to say that it's well staffed, we did have the registered nurses there, the doctor was there, the emergency squad is most efficient, in taking care of their patients, and then I would like to say that in the test run from the small hospital at Newman Grove to the Norfolk hospital, that the ambulance, the cone light did work, the siren worked, it seemed like everything worked real good. I think it was good to find out in a larger hospital than Norfolk that they have as good as care as we do in our little hospital, the needles are just as sharp, they use just as many of them, just as often as possible, that the only complaint that I could find within the hospital was they didn't serve the steaks and the pork chops that I most enjoy, other than that, I'd like to say it's good to be back with you, and I think that my report in those two hospitals will be probably quite expensive but a lot cheaper than if the HEM were to travel through there every other day and make this same report. I think we have good hospitals and they are doing a heck of a good job and I wanted to report that directly

(End of Belt #1)
