

March 8, 1973

we want to be fair about it and do what the court says we have to do and now they said apparently we don't have to do it and I, I'm not going into court. My good friend Senator Mahoney puts it in reverse--we want to pass a bill and let these two resplendent Senators take it to court themselves or find somebody else to take it to court. We want to put it in reverse--we want you to prove that what we did is wrong and being two fair-minded men, I'm sure you'll have no objection to that, that being, further being 50% of the committee certainly. By the time you get back here, you and Senator Carstens ought to be in agreement as to what the Attorney General meant so I'm saying in, just a suggestion, when you go over there, talk to the Attorney General and not any of the Assistant Attorneys General, and find out once, what can we do because if we can't do anything, you don't have any problem and if we can do something, I hope you do have a problem.

SPEAKER: All those in favor of the Carpenter amendment to the Carstens motion will vote aye. All those opposed will vote no. You are voting on the Carpenter amendment--

(End of Belt #9)
