

March 15, 1973

We would like to...they can't be...very good. We are delighted to have you here today as visitors. I am sure glad that Sonja and Gina are down there, down there checking on grandfather. See if you can keep him punching the button the right way, will you? All right. Do we have any other unfinished business.

CLERK: Read Appropriations Committee report. Mr. President, your Committee on Public Works--read. That is all, Mr. President.

SPEAKER: The first order of business this morning on General File is, of course, LB 43 and we will need to move on if we are going to do any debating this morning here.

(End of Belt #7)
