will take care of this and they have agreed that this other amendment is alright in place of the present amendment. So I would ask the, my original amendment be struck and I would move that we put this amendment on that I am proposing now.

PRESIDENT: Actually what we have before us is Senator Epke's motion which is to strike some of the previous amendment, which was adopted, and so this would be a motion to adopt the Epke amendment, which in fact does strike part of that and it does, in the Chair's understanding substitute some extra language, is that correct Senator Epke?
