

April 3, 1973

you to one job or the other and if they felt in their wisdom or lack of wisdom that one man could not hold two jobs, which of the two jobs would you chose to have?" And Dr. Anderson replied: "I'd choose to have the Director of Medical Services." Senator Stahmer: "And then that being the case, what would you assume if the Legislature felt that it could not be handled by two men, then you would prefer to be the Director of..." and Anderson replied: "Medical Services." Stahmer said, "Medical Services and that somebody else be found to be Director of Institutions" and Dr. Anderson said "That's right". Are we to ignore that this was his first choice at this time? Or are we to continue to force this man into an area where his administrative capabilities are questioned as not being as great as his medical services ability and what he could do this way for the State. Is this what we are asking today of this group that we put him in that position and put somebody else in the medical services directorship? Is this what we're doing?

SENATOR WHITNEY: Mr. President, Senator Barnett, in answer to your question, I would say that this Legislature should consider the Governor's appointment and it does not matter whether he said at the first hearing whether he prefers say to be a medical services director or not. This is not the question before us. Therefore, in my judgment it is irrelevant. We are not certain if we turned him down on this whether or not he will even stay as medical services director.

SENATOR BARNETT: That was my next question.

SENATOR WHITNEY: I certainly would consider that this is a possibility that you cannot judge exactly what would happen. But...

SENATOR BARNETT: Senator Whitney, could I ask you to respond to this then? In this light in which you know, and you know Dr. Anderson as best or as well as anybody in this body, would you be agreeable to laying this over for a day or two until we find out what direction the Governor wants to go?

SENATOR WHITNEY: No, sir, I would not.

SENATOR BARNETT: Okay, thank you.

SENATOR WHITNEY: We started on this March 1st and here it is in April, we've kept this man hanging on the ladder all this time and I think it's time for us to make a decision.

PRESIDENT: Chair recognizes Senator Luedtke.

SENATOR LUEDTKE: Mr. President, members of the Legislature, I rise to oppose the confirmation of Dr. Anderson and I wish to disagree with my good friend, Senator Whitney, when he said that it is irrelevant to bring up this matter of Dr. Anderson saying one time he would prefer to be the medical services director and the very next time when it comes up because he finds out we may not like to have him have two or three positions, he goes the other way because he understands that the only thing we can confirm is that of the director of institutions. I say that this shows some of the very serious problems with Dr. Anderson's administrative abilities. If there's one thing that has come through to me in conversations, in conferences with people concerning Dr. Anderson, it is that in his administration of the Department of Institutions, he has been one time on this side of the fence, the next time on the other. He has not been consistent. Now that doesn't mean we are always all consistent. But it seems to me that a man in this position having the
