

April 9, 1973

SENATOR KENNEDY: Mr. President and fellow Members. If you'll give me a couple of minutes, I thought we were going to spend a little more time on 449.

PRESIDENT: Once you get the ship in motion, we don't want to lose the momentum.

SENATOR KENNEDY: Yes. On page 6, line 2, strike "living" was the only amendment. I would ask for the adoption of the amendment by the committee. It is a very simple amendment, just striking the word "living" and the language would be in such areas as health, consumer education, governmental service and leisure time, just striking the word "living".

PRESIDENT: Any further discussion of the committee amendment? Question is--are you all through with the explanation, Senator Kennedy?

SENATOR KENNEDY: Yes.
