

April 16, 1973

of attention to the Governor's budget and his suggestions and I have a couple of suggestions. I think we are confronted with a highly practical problem. I think we ought to consider it as such. As I have always said and this body understands, I am inclined to spend money but that is not the point this morning. It seemed to me, first I would like to ask the clerk or the presiding officer...

PRESIDENT: Yes sir.

SENATOR CARPENTER: how long will it take legally and technically to advance LB 259 without any amendments, including the Governor's amendment, from there to Final Reading. What's the fastest we can move it over there to read it? Presuming.. just presuming we move it off of General File this morning, and there is no amendments. What is the time element it requires.

PRESIDENT: Senator Luedtke, would you care to respond?

SENATOR CARPENTER: Is Mr. Brown around?

PRESIDENT: I think it takes five Legislative days from there to the end. It could be expedited, but other than that.

(End of Belt #3)
