

May 10, 1973

SENATOR SYAS: Well, I don't know.

SENATOR MARVEL: After noon.

SENATOR SYAS: Well, I will withdraw my objection but I.. the only reason is I objected temporarily was the fact is if we could take it up earlier, I hate to be bound by Wednesday when there is such few days left, if we could take it up Monday, for instance.

SENATOR MARVEL: I am only handicapped to this extent that I assume there are motions either on members desks or up on the clerk's desk having to do with taking off two or three days at a time and I think maybe we ought to discuss the whole thing, find out. I just hear rumors to this. I don't know.

SENATOR SYAS: Why don't we do that...Senator Carpenter, why don't you withhold this motion until after dinner and why don't we find out what days we are going to be here and what days we are not before we take up Senator Carpenter's motion. He might be setting a day we're..that we'll decide to be off this afternoon. As erratic as this outfit is, you can't tell.

PRESIDENT: Senator Carpenter, do you care to respond?

SENATOR CARPENTER: Well, he didn't make an exception to himself either, so I accept his statement. I made the statement with the belief that this body will probably adjourn until Wednesday. Well, I know you don't know but it will take you and me and everyone else to get adjusted to what we are talking about. In Omaha, the Governor didn't give you 5¢ for the University of Omaha and I think you ought to be well prepared rather than to go into orbit and not know what you are trying to ask for. I ready to take it up now, but I think it is completely impractical.

PRESIDENT: Gentlemen, we can't record a conversation there on

(End of Belt #11)
