

May 16, 1973

(Start of Belt #9)

since we started the situation of advancing the bills without the amendments on them.

SENATOR CARPENTER: Well we are going to get a lot of confusion and I would like to amend his motion.

SENATOR DUIS: Fine, that is all right with me if you want to amend the motion to consider all of general file. I mean select file, that way the same as general file. In otherwords, a majority vote for amendments and 25 votes to advance.

CLERK: Then we would just add Mr. President, Senator Carpenter moved to suspend the rules and amendment of all bills on select file by majority of those voting.

PRESIDENT: All right.

SENATOR DUIS: I'll second the motion and we will have to do that each day, Senator Carpenter because we can't suspend the rules only except the day at a time.

PRESIDENT: Senator Whitney, then Senator Nore.

SENATOR WHITNEY: Mr. President it would seem to me now that we are kind of changing the rules here, and I presume that this would include LB 423. Now that has passed, been passed over and I don't want LB 423 which is a bill as I recall that was heard before the retirement committee. I don't want that bill jeopardized and I feel that there is an amendment coming up on 423 and I'd like to amend this motion to exclude LB 423 from this group that your speaking of. I so move, but the point is that I don't want LB 423 jeopardized and there is an amendment coming along on that bill that may jeopardize it, but only a majority vote and I feel that we should not jeopardize that bill. So I move to amend this to delete 423 from the motion.

PRESIDENT: All right then, he has a motion now to amend that. Senator Carpenter back to you for just a minute then.

SENATOR CARPENTER: In this case, because it is not in this category, because it would be moved back from E & R from engrossing to select file, is that where it is at now?

SENATOR WHITNEY: Yes, it has been moved back from E & R engrossing back to select file.

PRESIDENT: It is on E & R for engrossing. It is up there unbracketed for E & R for engrossing so I don't believe that is involved.

SENATOR WHITNEY: Then you are not speaking about LB 423.

SENATOR CARPENTER: No I have no, I'm not trying to do that for that purpose Senator.

PRESIDENT: Yes, the chair would recognize that that is not included in this motion today, Senator Whitney.

SENATOR WHITNEY: Well, I say lines on there this morning and I didn't realize that that line separated select file from E & R engrossing. Is that what that does?

PRESIDENT: Yes sir. Now Senator Nore.

SENATOR NORE: Fellow members, I realize that probably we made a commitment the other day that we would vote on these bills on select file, with only a majority, but I'd like to say that I think we should, we should change the rules and have a 25 votes on general file. I think we are getting
