

PRESIDENT: Speaker Proud, in order to just make sure that we have the issues clear, I would point out that the Chair has been put in a crack so to speak, in that if we or if the Chair detours from the usual schedule here in order to bypass final reading in order to go on to Select File, that is one thing and that is already an aboration of the schedule, but then if I detour once more in order to take up your to satisfy your particular motion here regarding motions on the desk, that is another.....

SENATOR PROUD: There is no detour at all, Senator Carpenter has agreed to that. That is part of the motion.

PRESIDENT: Alright, fine. Senator Carpenter.

SENATOR CARPENTER: (mike not activated at the first part of the statement) expedite the business.

PRESIDENT: Alright, very good, thank you. Are there any objections then to the change in schedule that way? We will operate on E & R for engrossing and then we will come back to Select File and more or less concentrate then today on those particular things. If we have time left then we will go to Final Reading. Are there any objections? Senator Murphy.

SENATOR MURPHY: Senator Anderson had a suggestion that I thought that I would pass along. He suggested that we suspend the rules and follow the rules today.

PRESIDENT: We are glad that we haven't run out of humor back there in the next to the last row.

CLERK: Read motion on LB256.

PRESIDENT: Chair recognizes Senator Proud.

SENATOR PROUD: Well Mr. President, I say to expedite this matter reasonably that the Clerk should read all my motions and as far as I am concerned they all pertain to 256. As far as I am concerned and with the patience of the body I am agreeable to discuss them all at once. If we take them one by one we are going to use a great deal more time. So I request that the Clerk read all the motion and then I'll take up an individual motion to and in that discuss them all.

PRESIDENT: Read the motion

CLERK: Read.

PRESIDENT: Chair recognizes Senator Proud.

SENATOR PROUD: Now Mr. President, I appreciate Senator Carpenter agreeing to take this up and I will try and be as brief as possible and still be able to cover the subject matter. This these amendments certainly are not designed to pick at anybody personally or their pet projects. I have paid no attention at all then to the geographic area affected by these appropriations. My motion is to strike them all and yesterday at my request the Chairman of the Appropriations Committee passed out a sheet to you showing each project that we passed hurriedly Tuesday. You will please note in there that there are that there is a considerable amount of money that would, in order to benefit of Douglas County, so I am not leaving in Douglas County and
