

of population, students and yet they want more money to do what? Really something ought to shut some of them up.

PRESIDENT: Have you all voted.....

SENATOR CARPENTER: Who has the that is the thing that I don't understand about this type of a motion like this.

PRESIDENT: Clerk will record.

CLERK: 27 Ayes, 0 Nays Mr. President.

PRESIDENT: Amendment is adopted. Are there other amendments to the bill.

CLERK: I don't think that there are Mr. President.

SENATOR MURPHY: A personal privilege to reply to the good Senator.

PRESIDENT: Go ahead sir.

SENATOR MURPHY: I'm flattered that he doesn't trust me any more than I do him. Because I surely don't trust him. Had it not been for him, my leader, who aborted this whole legislature in collusion with the Governor when this whole thing started this would have come up properly in the budget committee considerations and been debated fairly on this floor. Now for a man that \$800,000 through here the other day I think that I have every right to distrust him and his motive. In fact when he repeated speech number thirty-one this morning where in it he alternately baits the legislature, shides the legislature and derates the Governor all he left out was Peter Kewit and I don't know when I will accept his proposal. I don't know maybe he is now shot gunning for the Governor again setting up a series of appropriations to give the Governor a chance to perform. In lieu of this we no doubt will have Hiram Scott again. For a man that who would propose that we accept another educational institution which would be a drain on the present students, I think he has and I'm sure that this is true, he has admitted it the gall to propose that we punish and cripple and otherwise seek to destroy the current colleges that we have. As I say, I am flattered that he distrusts me. It is a mutual respect.

PRESIDENT: Gentlemen I wonder if I might channel the debate back into the question at hand which is the Select File we are desperately pressed for time. Senator Carpenter.

SENATOR CARPENTER: I just want Senator Marvel to develop to this body what they are doing. They are developing a new system which is contrary to some of the things that that are now going on as a matter of policy in other schools of higher education. What he said about Hiram Scott is an absolute lie. He knows it.

PRESIDENT: Senator Marvel, do you have some input into this? Apparently we have all of the amendments that were submitted. We have acted upon all of the amendments to 582.

SENATOR MARVEL: We appropriate money to build a utility plant at Wayne. Wayne has had trouble along with the other state colleges with enrollment. They also have trouble in filling the dorms to pay the interest. We have up to now paid the utilities cost, now I have to reword this. Up to now we the tax payers have paid the utilities cost. Am I right? What
