

(start belt #7)

PRESIDENT: Senator Carpenter.

SENATOR CARPENTER: I will expedite the matter. I move that the motion be referred to the Rules Committee. I think that the Governor reads what we do, and I think that he has got the message and he will see that they conform to the message. I would think that without having thought, that he would be in complete agreement with it.

PRESIDENT: Senator Nore.

SENATOR NORE: Mr. President, fellow members I think that it should be made clear that these folks are all serving at the pleasure of the Governor. That is, he has appointed them, and I think that it is a real good rule that Senator Carpenter has to keep from buck passing. It is something that is rather unpopular why, have the department or the code agency, the head of the code introduce the bill that way the legislature gets the blame and the Governor if it is good, he will get the credit for it too. I think that it is real good that all of these people are serving at the pleasure of the Governor and he should put his label on the proposed legislation.

PRESIDENT: Senator Duis.

SENATOR DUIS: Mr. President, I would hope that this motion and I have not heard it completely would say administrative departments and also in include in there. I asked to amend the motion. That anyone who appears at the request of the Governor on a bill shall so state.

PRESIDENT: Senator Duis, I wonder if the Chair couldn't just refer this to the Rules Committee and let you work on it from there. Wouldn't that be the best bet?

SENATOR DUIS: I think that there is a motion up there and I would like to know what the motion reads because I don't want to go into a rules committee just going off into four different directions. I would like to have some specific direction, so that we can hear the proper arguments when we have the hearing.

PRESIDENT: Chair would recognize that. Senator Carpenter.

SENATOR CARPENTER: Refer it to the rules committee.

PRESIDENT: Pardon me sir?

SENATOR CARPENTER: Refer my motion to the Rules Committee and we will attempt to bring back something that is factual and realistic and understandable.

PRESIDENT: Thank you, but Senator Duis do you still want..

SENATOR DUIS: I merely wanted to amend the motion so that we had both subjects in there and that is anyone appearing on a legislative bill, representing the Governor will so state at that time to the committee hearing the legislative bill or resolution.
