

now by Senator Duis now and he was asking that for clarification in order to give the rules committee a sense of direction lets ask this question. All those in favor of the Duis amendment say aye, those opposed say no. Thank you, then the Duis amendment is adopted and the...a...to the Carpenter motion, which would be a proposed rule change and the Chair is just going to refer the motion and the proposed rule change to the rules committee. Are there other motions on the desk?

CLERK: Read committee reports.

PRESIDENT: Senator Syas.

SENATOR SYAS: I just want to ask a question while we are still in session, of Senator Chambers and Carpenter, I hope they are both...no they are not both here. We heard the bills on the Governor and the Lt. Governor running together, as mates, and they are placed on General File today and they will be way down on the bottom and I don't care if they are down on the bottom or where they are, but I am just calling to the attention of the Legislature if they want to move them up, they can do it if they want. If they want to leave them down, I could care less either way, I have no ax to grind on them. The Legislature had our committee hear the bills and our committee introduced the bills at the legislatures request and have done everything so far that the legislature has requested. I have nothing personally for or against the bill at all. Whether you want them to bring them up for an early debate or leave them where they are, I'm not going to make that decision either. I'm just calling it to your attention.

PRESIDENT: Senator Syas I think that you should direct your question to Senator Proud, in private conference. Senator Luedtke, you had your light on, did you have anything? Senator Murphy

(end belt #7)

(start belt #8)

back to you, do you want to propose a rules change, as you mentioned? What is your pleasure there? The Chair doesn't ever want to be in a position of shutting you off, and I know that you wanted to discuss this and if you want to propose it why...

SENATOR MURPHY: I don't know why the Chair would feel any different than my wife. She shuts me off all of the time.

PRESIDENT: We enjoy your humor too.

SENATOR MURPHY: I was actually drawing up a motion to submit to the Clerk, siteing specifically Chapter, Verse and rule number and I will try and have it on his desk here shortly.

PRESIDENT: Fine, thank you.

CLERK: Read, Mr. Chairman I move the introduction of the attached bill signed, Senator Fellman, Correction, Signed Senator Luedtke, Fellman will explain.

PRESIDENT: Senator Fellman, are you ready to explain?
