

February 6, 1974

PRESIDENT: Standby, Senator Duis.

SENATOR DUIS: Mr. Dickinson, I am sure that has been taken care of, but instead of delaying this issue and starting an argument let's go ahead and vote on it, because I know your position and I know mine. Let's just vote, I don't think it's going to require any particular more thing, because these things have been looked in to previously.

PRESIDENT: Are you all through discussing the motion now. Alright, the question is then, do you all understand the motion... Alright, Senator Nore.

SENATOR NORE: Mr. President and fellow members, I don't like to oppose anything that my good friend, Senator Carpenter, proposes, but I think this probably should be turned down. I think it would spoil the decorum of the room and I don't think it's necessary. I think most of the noise is kind of right in our body. Look now, we don't have anybody on the sidelines at all, and still we have a lot of noise. Where is it coming from? It's got to be coming from within the body and I think it; is completely destroys the decorum of the room.

PRESIDENT: Now, once again the Chair is going to ask are you all through discussing the motion. Then the question is, shall the south section of the Legislative Chamber, according to the motion, be enclosed in glass and the lowest bid taken. All those in favor vote aye, all those opposed, vote no. Once again the Chair would ask, have you all voted. This is the motion to enclose the south section in glass and take the lowest bid. Senator Carpenter's motion. Now, have you all voted? Senator Syas this is the motion to enclose the south side in glass and take the lowest...this is the motion to enclose the south side in glass and take the lowest bid. That's correct. If you want glass, vote yes. If you don't want glass vote no. Senator Stahmer have you voted? Alright. Clerk will record.

CLERK: 11 ayes, 30 nays, Mr. President.

PRESIDENT: Motion failed. Senator Carpenter.

SENATOR CARPENTER: The point of what I have two things to do. Now, I hope this body will not complain about noise in the future, and I hope you'll not put this presiding office in the position of being criticized for doing something he can't do. Now, Number 2, so I won't get in this position again. The Executive Board will meet today at 1:00 and all of those Senators who desire to become a part of this public desire to correct what now is confronting the nation. Those who want to go, we'd like to have you come to this meeting and if you say you'd like to go, I am not against sending this entire body if you want to go

(End Belt #2)

(Start Belt #3) Malfunction of machine.

SENATOR PROUD: I'm saying that they were elected on a partisan ticket and they are in a situation where they probably don't want to embarrass either the President or the Party. God knows the President's got enough troubles. The Democrats, on the other hand, are not in power, so they can't do anything. Now, this same situation exists in states throughout the United States, with
