

the department to get some added uniformity in the accounting of various receipts, the reports presently used and have been used for a number of years are adequate but they do have differences as to how individual school districts place expenses and it is necessary that we have complete uniformity in this area in this and a..a..this authorizes the department to do so. Section 25 deals with the limitation and it merely states that future sessions of the legislature would be required to set the limitations each year as they met on a two year basis but again this kind of provision could be reserved or the section of could be reserved for the discussion of LB984. Section twenty-six is the somewhat if any section is declared invalid or unconstitutional it would not affect the other parts of the act, and the purpose and part of this is to insure that if they lost his file on one particular aspect of the act, if you would not have the funds that other schools had anticipated getting tied up. The other sections as far as the emergency act had been stricken by the committee amendments at this point there are two repeal sections. The current during the first years of this acts implementation those funds that are presently distributed under the law passed in 1967 as well as the act passed in 1973 would be distributed on that same basis
