

Senator Dickinson, do you have any closing on your motion?  
Senator Snyder.

SENATOR SNYDER: I'd like to add my support for what it is worth here, to add the name of Senator Mahoney we will call it the machine shop.

PRESIDENT: Alright, Senator Dickinson, do you have closing?

SENATOR DICKINSON: I have no closing, really this is only a matter of procedure that must be done, and that is all that I am asking. I don't want anything added as has been attempted to be added to what I am asking for to get this bill back and put it back on General File where it was and not with no guarantee that it will then be at the top of General File or any other particular position on General File.

PRESIDENT: Motion is not subject to any amendments anyway. Just a minute here we have all sorts of...Senator Simpson.

SENATOR SIMPSON: Mr. President, I have a question of the Chair. If the bill is returned to General File, where does it go on the order?

PRESIDENT: Well, good question. The Chair...Senator Mahoney has requested that if it goes back to General File that it receive immediate consideration and place the amendment on it that he is willing to offer which apparently corrects part of the problem here I think. Senator Dickinson do you have input on this?

SENATOR DICKINSON: A point of order. I would think that question would have to wait until after the bill has been placed back on General File and anyone has the right to request it be placed on top of General File.

PRESIDENT: Senator Simpson is asking for what happens after what happens to the bill after it gets to General File. That is why I am enumerating Senator Mahoney is proposing an amendment that it be placed on it then then it be re-advanced. If possible. If not, fine. Now, Senator Carpenter, for what purpose do you rise? Do you want to be heard on this issue?

SENATOR CARPENTER: I was going to make a personal privilege. I think that Senator from Omaha remarks were completely unacceptable. It was not made in jest, it was made to be vindictive when he called Senator Mahoney a machine shop. Don't shake your head, I know how you act and how you react. One word of defense to Senator Mahoney. I know of no man in this body in Douglas County who has any greater following because of the man's goodness, his ability, his devotion to his church and his family and the young people than he has. I get a little sick and tired of these people taking...he is big enough to take care of himself. Obviously he is one of the finest friends that I have ever had. Let me tell you people in Douglas County that if you get to putting disrespect on his head, you wind up like the former Mayor of Omaha did. This man has done more in the area of public service than any many I have ever met. He is subject to more abuse that is undeserved, he is not entitled to it, and I just think that sometimes things in jest are said in earnest and I think that this was.

PRESIDENT: Alright, we are trying to bring to vote the motion to return LB813 to General File. The question is,
