

there would have been members of the body saying that is that he is trying to inject himself too much into the deliberations of this body and if we felt that it was too controversial, we thought that we were the ones to make that decision. The action that we took on the bill indicated that the Lt. Governor did nothing improper and that is my opinion. Only one comment about what Senator Carpenter said about Senator Mahoney. PRESIDENT: Thank you. Senator Chambers I would amplify your remarks also by only mentioning that the Chair did not hear any motion that would have laid the bill over and that is the way the Chair would have to proceed because I am under that obligation as the presiding officer.
