

SENATOR STAHMER: What happens to the Omaha Board in the interim?

SENATOR WARNER: Under the committee amendments there responsibility and authority be transferred to Eastern.

SENATOR STAHMER: Eastern Board until the Gov....

SENATOR WARNER: Until the Governor appoints a new one.

SENATOR STAHMER: Until the Governor appoints a new one? Well I think that this is highly undesirable. I'm not even sure that it would be legal to....

PRESIDENT: We are not debating the motion. We are not debating the amendment Senator Stahmer, this is only the amendment to strike the amendment on there.

SENATOR STAHMER: When did we have any debate on it? When did we have the debate?

PRESIDENT: This is the one that is in the book. The debate was Friday. We are only striking that one.

SENATOR STAHMER: I mean when are we have or when are we going to have the debate on striking it?

others....

SENATOR STAHMER: No it wasn't that was the debate that had to do with whether we should hear it today or lay it over. We never debated this yet.

PRESIDENT: OK, I'm trying to limit or move ahead so that we could consider the amendment which is up here. The bill was not laid over, we are now going to debate then what happened. This was only to relieve the amendment that was put on Friday.

SENATOR STAHMER: Alright but we still haven't debated whether we should or shouldn't strike that off that was put on Friday and instead put this on.

PRESIDENT: Go ahead and debate.

SENATOR STAHMER: I would like to speak against the amendment proposed by Senator Warner and...

PRESIDENT: You can't speak against the amendment proposed because we are just speaking only on the one to strike the amendment. That is all that is under consideration at this time. That one comes up next, but I have to have the amendment....I have to strike the amendment and get it off of the bill in order to satisfy the piers of the body in order to debate the next motion is my point Senator Stahmer and I'm not sure that I am coming through.
