PRESIDENT: All right. We have some other reports to read into the record here. Clerk will read.

CLERK: Mr. President, we have a corrected statement for LB737. I ask unanimous consent, Mr. President, to bracket LB815 for Monday, March 4, signed, Senator DeCamp.

PRESIDENT: We have....let's clear the board here...the Chair's in a little bit of a quandary here because we really haven't expressed a preference here as to what you want to do now. You've had discussion on it and as far as the Chair knows, the only thing positive we have really is the suggestion that when we adjourn today, we adjourn until Monday until 10 a.m. That's the one suggestion other than what Senator Syas suggested that if we meet tomorrow we meet for the whole day or we don't meet at all. Now, that doesn't really resolve the issue.....
