

PRESIDENT: Alright LB997 is advanced. Senator Carpenter, for what purpose do you rise?

SENATOR CARPENTER: I would like to move that the bill be expedited to be put on the Governor's desk as soon as possible in order to let him make his decision on whatever it might be. Let me also caution you while I am up on my feet. The budget bills will probably not be on the floor here before the first part of the week. I'm only guessing at that and when they get here, if it takes as long on those as it does on this one, we will probably not consider much more than the budget bills themselves. If you get bills up that you want to get moving between now and Friday is the time to get it done.

PRESIDENT: Are there any objections to the expedition of LB997? Any objections? Hearing none, so ordered.
