

March 12, 1974

by politicians to try to bring some confidence in this system. But when the system has so many defects. If you have a horse with three crippled legs, maybe the only thing you can do is shoot that horse and try to get another one. So rather than take this approach of piecemealing it under pressure, I think the whole body of election laws should be studied and revised. In the meantime I reconfirming my opposition to this bill.. My support of Senator Syas's motion to kill it. That's the only thing that sensibly can be done with this bill.

PRESIDENT: Senator Kelly.

SENATOR KELLY: Mr. President, colleagues, there has not been a single thing said on this kill motion that was not corrected in the amendments that you refused to adopt. We're giving lip service to wanting to have information and clean up elections if they are dirty, which I doubt. When you have an opportunity to do it simply. We again jump on the bandwagon that it's unworkable. How do we know it's unworkable, when it has not been worked. And we would talk as though this were a new idea. Yet there isn't a single business in the State of Nebraska or any other state including confusion that doesn't use this system of this kind every day. We can take just one look at the American Express Company that has checks all over the whole darn world, and at midnight, they can tell you where every single one of those checks are. They can balance, they know where they are. Bookkeeping is not anything that's magical. Or it isn't anything that is harmful. It's just merely a matter of whether you...the Nebraska Legislature wants to bring these principles into campaigning in Nebraska, than have it for full view for those who are going to vote for us before they vote. Please don't kill this bill, let's get a look at it, and put on the amendments then move it along so that the people can have the right to know

PRESIDENT: Senator Cavanaugh, then Senator Nore.
Passing, Ok, Senator Nore.

SENATOR NORE: Mr. President, with the reenactment of the amendments that we have just turned down. I think it is a real good piece of legislation.

(End Belt #3A)

(Start Belt #4A)

I think many of us who would relate folks philosophys by the contributors. You relate the contributors by those who contribute. And Senator Chambers, would you answer a question if I would.

PRESIDENT: Do you want to pose a question to Senator Chambers? Senator Chambers will you yield to a question from Senator Nore. He yields.

SENATOR NORE: Do you get any cash contributions from outside of the state?

SENATOR CHAMBERS: Do I?
