

unfair to others that want their bills up there. So when and if you make this move, you had better think hard about it and you had better realize that we are abndoning all of our past procedures and we are going to adopt without debate amendments which may be extensive amendments into this bill and put them over on Select File. Mind you without debate. Now, that is the way that I understand it that....I might be cleared up on that point right now, I understand that the amendments under the motion, the amendments would be adopted on General File without debate, now am I right or am I wrong?

PRESIDENT: That is not part of the motion as the Chair understands it. Stand by, we will get the motion read for you here just a moment.

CLERK: Read motion.

PRESIDENT: That would be by 25 votes, and that is not by unanimous consent motion.

SENATOR PROUD: Then we are going to debate the amendments?

PRESIDENT: That is right sir, but the committee amendments only though.

SENATOR PROUD: But we are not going to debate the bill?

PRESIDENT: Oh yes.

SENATOR PROUD: I want to be sure that I have got this thing right. If you are going to debate the bill, I have no objection.

PRESIDENT: Senator Carpenter.

SENATOR CARPENTER: (mike not activated) we are going to do.

SENATOR PROUD: I am just asking, there seems to be some disagreement.

SENATOR CARPENTER: (both Senators talking at once) very knowledgeable. Of course you can, the idea not to debate the bills is the idea to move them over and get them over on Select File. I don't presume that anyone will stop anybody that wants to debate it. This is a matter to just expedite movement, lothing else.

SENATOR PROUD: Wait a minute. The motion is to either debate the bills on General File or it is not to debate them, which is it?

SENATOR CARPENTER: I have no objections. If you want to make it sure debate, put it on there, but for heavens sake lets do something and talk about it.

SENATOR PROUD: If I put a motion to debate the bills on General File there is no need at all for your motion anyhow. Because we are just right back to where we were.

SENATOR CARPENTER: What do you....you are the Speaker of the House, what the hell do you want to do?
