

one of these bills become law and if the Governor wants to send over word that he will sign his bill, and that it will become law, then I forget about my bill, but I don't want all of this jockeying around pussy footing, mealy mouth, wishy-washy, nonsense, so as to decide as to who gets the credit for giving kids a few bucks.

PRESIDENT: Senator Kennedy, do you want to close on your motion?

SENATOR KENNEDY: Very briefly just to say that both of these bills were underlined and they were both set there as Senator Schmit just spoke it is his bill that is underlined, I took the privilege of introducing so that we would have a bill and all that we are saying is that you will have a choice if you put the two bills up here. I am asking because both bills are underlined. I am asking that they are talking about the same subject. Lets get it cleared if you would get it up there and I hope that you will so that it can be considered and because there is a little bit of difference, and as Senator Loran Schmit it is very little difference, but some people feel that they want it one way and others want it another. I'm sure that this body will make a good decision and elect to take one of the bills and I'm going to ask that you consider this bill along with the other one. Thank you.

PRESIDENT: Senator Carpenter, he was closing on his motion to suspend the rules in order to consider 977.

SENATOR KENNEDY: I would certainly give Senator Carpenter here if I have the privilege.

SENATOR CARPENTER: I only wanted to ask Senator Schmit a question. I don't want to do that you wouldn't give anybody else.

PRESIDENT: Alright fine, ask the question of Senator Schmit.

SENATOR CARPENTER: I didn't know until now, which shows how little that I know, that the two bills do the same thing to a different degree, is that so?

SENATOR SCHMIT: Yes.

SENATOR CARPENTER: Why can't we amend one with the content of ...why do we have to raise two to do the same thing. You can amend the other bill and do whatever you want wherever you can prevail. I see no sense of raising this bill when you have got one already raised to do the same

thing to a different degree, is that so? Why can't we amend one with the content...why do we have to raise two in order to do the a a same thing. You can amend the other bill or do whatever you want where you can prevail. I see no sense of raising this bill when you have got one already raised to do the same thing.

PRESIDENT: Senator Schmit, do you care to respond?
