

(Start belt #8)

harvest the beans, the lower beans this would increase the yields dramatically. I would also like to say that soybeans are a crop that are demanded for export and I remember last fall that the U. S. Government put a lid on exports on soybeans because they were concerned about the shortage that this will create in the United States so it is important that we increase the amount of soybeans raised. So I move that this amendment be adopted.

PRESIDENT: Is there any further discussion of the Maresh amendment? Senator Schmit.

SENATOR SCHMIT: Mr. President, members of the legislature, I support Senator Maresh's amendment, but I realize that it is a lot of money and perhaps it might be considered trivial but it is a very important situation and very important to the soybean producers and I hope that the body goes along with Senator Maresh, and I commend him for introducing the amendment.

PRESIDENT: Is there any further discussion now of the Maresh amendment to 1054? The question is do you want to adopt the Maresh amendment. If you do, vote aye, if not vote no. This is the Maresh amendment to 1054. Appropriating 50,000 dollars for soybean research. Have you all voted? Clerk will record.

CLERK: 26 ayes, 2 nays Mr. President.

PRESIDENT: Motion is adopted.

CLERK: Read amendment number two.

PRESIDENT: Chair recognizes Senator Murphy.

SENATOR MURPHY: Before I start I would like you all to picture the University of Nebraska Marching Band. Senator DeCamp does a miserable interpretation. These people about 200 strong and have engaged on a project to tour Europe. Now they certainly could not be considered among the ugly Americans and I don't know how Nebraska could be more beautifully represented than by this group. They are talented, they are dedicated and they have worked very hard to perform and they will work harder in order to make a fine production out of this trip. Now they have set about themselves and raised \$50,000 in various projects. This is approximately a third of the cost. It is going to cost them about \$150,000. They are determined to go if they have to pay the balance themselves, they are going to do it. Now, I don't know what possible representation we could get for this state what finer representation of the youth of this country could be pictured than this group travelling in Europe and I assure you that they will not be streaking, they will not be demanding booze on campus, a they are a beautiful group of people and I think that it would be the very least that this legislature could do to match the funds that they raise which would be about the third of the cost of this trip. They are near the deadline and this is the time. We are quick to criticize our young people and I think that we should be just
