

SENATOR CARPENTER: Now on the committee statements it says that the state is going to put up 75% of the money. Now how much is that. Has that been recommended by the budget committee, and what appropriation is it in?

PRESIDENT: Senator Kennedy do you care to respond?

SENATOR KENNEDY: I think depending upon what the area and I don't have the figures at hand from the amount that is now involved, they will be doing similar this year, the total in round figures would be about 3 million which is already involved and this year there are no other additional. This will be done according to western or northeastern districts approximately the same programming that they are doing now' with additional they have asked for. It is not in this bill.

SENATOR CARPENTER: Can I ask Senator Marvel a question, is he around here? On this 75% as I understand by the committee statement if you put up the state, is that in a budget or any budget so far?

PRESIDENT: Senator Marvel do you care to respond?

SENATOR MARVEL: We have been told by the staff that the amendments that we talked about the other day to the mental health program that for or were adopted originally the formula that was set up was \$2.00 per patient and a...a...can you explain that to him and I will go from there.

PRESIDENT: Senator Stahmer.

SENATOR STAHMER: It is \$1.50 now and I believe that we had original, and I could be wrong, but I thought it was \$3.00 and I think that we cut that in half so I think that it amounts to \$1.50 in each region.

SENATOR MARVEL: Now, to proceed in the amendment the staff tells us that even if 302 is passed there is enough money in there this year to fund any community mental health programs or operations that will be undertaken if 302 passes. I'm talking about in the budget so that it would be starting with July 1, 1974.

SENATOR CARPENTER: OK, so it is your judgment as far as the money is concerned it is taken care of in the next fiscal years budget?

SENATOR MARVEL: Yes, based upon...that is true, because they can't move that fast on the programs.

SENATOR CARPENTER: What do you mean that fast? What if they do move that fast? What do you mean by fast?

(End Belt #6A)

(Start Belt #7A)

Does anybody know what they mean by....

SENATOR MARVEL: Let me give you an example. Out our way there is an attempt, under the department of public institutions Dr. Anderson has indicated that before any of these community
