

probably withdraw the amendments that I have on things up there to make that proceed a little faster if the rest of the body would be willing to do it. We could sacrifice a little over there and come back over here where we might have a half a dozen bills that are very important. I would....would it help you any Emory if we took Monday off and came back Tuesday Wednesday, Thursday and Friday? That would give you another day? I will ask this then sit down. I don't won't to prolong it any longer. But there is a couple of things that are so darn important up there right now that it isn't funny.

MR. BURNETT: I will do the absolute best that I can to meet what ever this body wants me to do. I can give an absolute guarantee that if you do as Senator Carpenter mentioned I will have all of those bills to Final Reading on Monday. I don't know what is on those bills sitting on General File Senator.

SENATOR BARNETT: I think that there are some that some might be afraid to vote on and I would say just forget them. I'm not worried about them. I passed some controversial alcohol bill to keep talking about it, forget it and throw it out for now. Bring it back some other time. I'm not worried about them. I think that we have some real important bills, and I'm sure that Omaha does and I'm sure that the Omaha Senators do. Mr. Chairman I would like to amend Senator Carpenter's motion. I don't know if it will help or not, but I would like to amend it. That is that we take an extra day which is Monday and come back Tuesday, Wednesday and Thursday and Friday. Or is that going to mess up that last day?

SPEAKER: Senator Barnett, you have the right to do that, but how would it be if we vote Senator Carpenter's motion up or down and then take your motion. I think that we are confused enough.

SENATOR BARNETT: Well we are going to loose it if we go that way.

SPEAKER: Well, you have the right to do that. Put that in writing then. Senator Duis.

SENATOR DUIS: Senator Barnett, before you do that, why don't you take the suggestion, or think of the suggestion that I have here. That is go ahead and vote Senator Carpenter's motion into being now. Then go ahead and see how well we complete Select File in getting the budget bills over into engrossing and at that time take up your amendment because then we will know where we are. We will know what kind of a situation that we are in for the remainder of the day. It may be such a thing that we can take your amendment. Maybe we will hurry and get this 1055 finished up and then we will have plenty of time yet today to even get to General File, so while we vote his in, amend it later on. Well give it a try, you will never know.

SPEAKER: Senator Barnett.

SENATOR BARNETT: Senator a...a...Mr. Speaker, I would like to disagree with my good friend Senator Duis, I don't think that we would ever get to General File if we go back over on Select. We would be there for 14 days if they would let us. They keep
