

SENATOR MAHONEY: Mr. President, I'll withdraw my motion for Saturday. It seems as though those budget bills have got the problems to them and we will stay to that schedule for Monday. The only problem Senator Kennedy in his question is that going back to work tomorrow and the next day, is that I don't think that Mr. Burnett is ready for us because we don't have the budget bills that we are speaking about prepared for tomorrow. That is why we have that schedule abundance.

SPEAKER: Senator Cavanaugh; passes. Senator Syas.

SENATOR SYAS: Just one question, are we in a position or you are in a position to know. What do you recommend to me that how we should handle our days from now on. What is your recommendation. You are the one that has to do the work, you should know what you recommend. I would like to know and that is the way that I am going to go.

MR. BURNETT: My first recommendations Senator would probably be unpopular and that would be that you stay today until you have the appropriations bill moved to me.

SENATOR SYAS: Well that is unpopular, yeah. Go ahead.

MR. BURNETT: I recognize that, but....

SPEAKER: Mr. Burnett, give us an alternative. So that we have something to vote on.

MR. BURNETT: It would probably be better to come back Monday.

SPEAKER: Who made a motion here? Senator Mahoney...

SENATOR MAHONEY: I made the motion and made the discussion because we had reached 4:30 in the afternoon and there were people who were asking what is going to happen because of these bills being moved over. I have withdrawn the motion but we stated what a...a...we have stayed with what we had said this morning to continue with general file until whatever happens.

SPEAKER: Senator Burbach, then Senator Duis.

SENATOR BURBACH: I would like to know, there is probably a good reason, if we were to work tomorrow on those budget bills and I mean work on those...why would that be a disadvantage? We could have these things done and completed, how many amendments are there on the budget bill? Wouldn't it be advantageous to work tomorrow? Wouldn't it, I don't know.

MR. BURNETT: I think that I would have to waive and answer that and suggest that that might be taken up with Senator Marvel and not with me Senator.

SPEAKER: Senator Duis, do you want to yield to Senator Marvel?

SENATOR MARVEL: I'd like to rephrase the question and see if this is what Senator Burbach had in mind Emory. If we met tomorrow when would 1054 be back on Select File to be acted upon? I guess the time or the question is how much time do you need if you are going to have a....

MR. BURNETT: If you are going to have a full day tomorrow I
