

can probably have it done and in tomorrow. I think that we are far enough along on that,

SENATOR MARVEL: You mean that if we met at 9:00 or 10:00 in the morning that it would be ready?

MR. BURNETT: Not that early in the morning, no. Probably at best, at very best, late morning morelikely in the afternoon.

SENATOR MARVEL: Senator Burbach, was this your question?

SPEAKER: Senator Duis.

SENATOR DUIS: Emory, what I am concerned about now is in relationship to 1054 was 1055. Now if we would stay here and do our work on

(end belt #15A)

(start belt #16A)

1055, we would be in the same position as 1054 then, wouldn't it? So that you would be working on it.

MR. BURNETT: I would be able to work on it, but I couldn't say what I would....the time I would be able to move it without saying the amendment senator.

SENATOR DUIS: But we would save ourselves one day on the appropriation bill by acting on 1055 yet today.

MR. BURNETT: You would have that bill that much further ahead.

SPEAKER: Senator F. Lewis.

SENATOR F. LEWIS: Mr. Chairman as unpopular as it is, I think that the correction suggestion is to finish General File and I would be perfectly willing to stay and work on the appropriations bills rather than for us to come back Saturday. We are all here now, most of us, and if we are going to have to do the job anyway I think that we would be better off to just keep it rolling.

SPEAKER: There is no motion to meet on Saturday, is that right Senator Mahoney? As of right now, wasn't it you Senator Barnett, that your motion carried as to when we meet. That is the situation at this time. Did you make that motion? As to our future meeting date? Senator Carpenter did. What are the future meeting dates now Mr. Clerk. So we know where are and then if someone wants to make a motion they can.

CLERK: Monday, Tuesday, Wednesday and Thursday.

SPEAKER: Under the motion we would adjourn we...when we adjourn today we adjourn until Monday and then we will go Tuesday and Wednesday and possibly Thursday. Alright, Mr. Burnett, it is your suggestion, or is it? That when we adjourn today we adjourn until Monday? Considering your work load and so forth.

MR. BURNETT: That would just about have to be it Mr. Speaker.

SPEAKER: Alright, you have heard the Mr. Burnett's recommendation
