

doesn't want to comply with the rules and regulations that the county attorney sets down, the county attorney can always tell him, you are gone. We will get another one. You know that he doesn't have to work for a county a deputy county attorney. It is not a requirement and so I think to settle that one is easy. I'll say this that if Lancaster or....Sarpy County has four deputy county attorneys now, you pay them a good salary and bar them from outside practice you will probably only need two. That is the way it goes. I think that I will end with that but as I say this is the same argument that were used about 15 years ago when Douglas County bared their county attorneys from private practice. It is the same argument today, and none of them happened.

PRESIDENT: Clerk read the motion on the desk.

CLERK: Read motion.

PRESIDENT: Does the Chair see five hands? Thank you. The question is shall the debate now close? All those in favor vote aye, those opposed vote no. Motion is to close the debate. Well are you all through voting? Question is shall the debate now close? Thank you, Clerk will record.

CLERK: 26 ayes, 0 nays.

PRESIDENT: Thank you, Senator Mahoney, IS CLOSING on his motion to indefinitely postpone 774.

SENATOR MAHONEY: As you remember Mr. President, when I made my motion to postpone I made it very brief and very short. I did not know that Senator Syas was going to go into a long speech and there would be impersonations by his son Senator Snyder and all the people but to say this very briefly and very quickly. Sarpy and Buffalo county two counties. 93 counties in Nebraska a Senator Snyder 93. Why do you want to impose the rules of Buffalo and Sarpy on the other 91? That is the question. That is the question right there. Let me talk to the Senators that represent the 91 counties. Why should you let Buffalo and let Sarpy County make up your mind? Why should you let Senator Syas and Snyder, become part and parcel of that decision following the leadership of the great Senator Cavanaugh and you know that in this particular area that there are only 20 lawyers in Sarpy County, I think that they need the chief deputy and the other three deputy county attorneys to help take care of the needs of that county. They don't need to reach up into Douglas County and look for other lawyers, let all counties be represented together. Vote this bill down and lets quit, all of this waste of time on this 774. Let me speak to the other 91 counties and vote it down.

PRESIDENT: Senator Keyes, your light is on, for what purpose do you rise?

SENATOR KEYES: I would like to ask Senator Mahoney a question.

PRESIDENT: You may not, he has closed and that is the end of the debate.
