

do want to mention here is that tomorrow on a schedule that we set last week, we said that we would meet Monday but not meet on Tuesday, but the E & R Committee could catch up with us. We haven't progressed that far today with bills, and I would like to ask that a motion here today that we either work tomorrow or not work. I think that we could only do it by a vote on the board. Vince is it your opinion that we are bogged down and need the day off tomorrow?

CLERK: Let me check with Emory? It is merely how....

PRESIDENT: Stand by, while he is doing that, Senator Marvel did you want to be heard on this issue?

SENATOR MARVEL: No, I have a motion up there on the a schedule of adjournment for...which speaks to your point but I think that maybe you ought to clear that up first. My motion will come after we finish Select File today.

PRESIDENT: Mr. President....

SENATOR KELLY: Mr. President, Senator Mahoney, is the Chair intentions to finish these five bills on Select File yet this afternoon?

SENATOR MAHONEY: Yes, that is correct.

SENATOR KELLY: Thank you.

PRESIDENT: Senator Warner.

SENATOR WARNER: I was just going to suggest that when Vince is talking to Emory that I don't know if there is any a bill that would be wanted or that the body would want to vote on the 59th day, but if it is it would have to be reported in today for Final Reading in order to do that. So...I have no bill that I am concerned about having voted on the 59th day but there may be someone that is.

PRESIDENT: thank you. Senator Mahoney.

SENATOR MAHONEY: Mr. President, Vince is contacting Emory and with the work that we have done today there would be no reason to hold us back from tomorrow and we could go ahead and hold our regular session. Is that correct Vince? My understanding is that we could go ahead so far as it stands with just four more bills that... Then tomorrow we can make a decision as to where we go and if we should meet half a day for Friday and have that as the 60th day or take as Senator Marvel is going to come up with later a move to go into the next week so we can think of all of those options but as it stands, can I ask a motion as to how many of them are agreed to work tomorrow morning for the 57th day?

PRESIDENT: Lets take...

SENATOR MAHONEY: Can I have either a red or green vote as tomorrow being a regular day and to offset the motion that we made last week.

PRESIDENT: Question is then shall the body meet tomorrow? Stand by, Senator Marvel, go ahead sir.
