

April 11, 1974

would like to make this presentation to you from the Governor as a small token for all that you have done for the people of the state. You can't see it back there but this is a high altitude map of the countered map and the beautiful countered land that they have out there in what I call "Ramey Whitney Country" and it is some of the most beautiful country that we have in Nebraska. Congratulations to you Ramey for a job tremendously well done after many, many years down here and also that I hope that you will keep and have this in your office to remember your fellow colleagues by and your Governor who are going to miss you. Now last, but far from least, Terry we all wonder how we got along with you while you were down here and we wonder how we are going to get along without you when you are not in this body, but in remembrance of the many years of service that you have given, the great leadership the times that you have agreed with this Governor and the many times that you have not agreed, at least I always feel that Terry Carpenter is over here saying and doing his thing and really we wouldn't want it any other way. So I have something here that I have been saving for an appropriate time for about two years. At this time, it is funny and yet it goes with sincerity because I think that this framed cartoon of a...a...courtesy of Ed Fisher of the Omaha World Herlad kind of sums up Terry Carpenter as a way we have always known him. So with that, I make the presentation of the original framed cartoon of Terr Carpenter called "Super Terry" On this it says "Able to arrange computer studies in a single bound, faster than one man spending \$50,000 of tax payers money, (I don't know why they only said \$50,000, Terry that is kind of an insult), and more productive than a Legislative Council, its a bird, its a plane, its Super Terry." Super Terry from your Governor to you with my congratulations. With that let me close, by thanking you for your dedicated efforts here during the last few months, to my fellow candidates good luck, within reason, and to all of you God Bless you and thank you for your efforts.

PRESIDENT: Thank you. Committee will escort the Governor from the Chamber. Governor Exon before you leave the Chair wants to mention that we appreciate very much your appropriate remarks regarding these retiring Senators, that was nice. Thank you sir.

(End Belt #17A)

(Start Belt #18A)

Chair recognizes Senator Robert Clark.

SENATOR CLARK: Mr. President, members of the Legislature

PRESIDENT: Senator Clark...before you proceed there may the Chair have the privilege of recognizing Senator Moylan.

SENATOR MOYLAN: Mr. President, members of the Legislature It was brought to my attention just a few minutes ago that we have another very long time servant of this body and a very faithful one and one that is always ready to greet you with a smile and he has served this legislature in the neighborhood of 30 years. He is retiring this year and this is our bill drafter, Jack Wilson and I think that he should have a round of applause.
