

February 5, 1979

LB 9

even have the most up-to-date textbook of their own profession, I am not confident that they are capable of administering these drugs. I have made up my mind now and I cannot support the bill. I don't know enough to support this bill and place on the public the possible problems that can result and, Senator Clark, if scare tactics they have used, they have scared me sufficiently to trigger me to make the judgment that I will not vote for the bill.

SPEAKER MARVEL: All right, I would like to have your attention as to what the Chair intends to do. The following people have indicated that they were interested in the discussion on the kill motion. So the Chair will keep a copy of those whose lights are on. They will be first recognized tomorrow and we will continue with the debate as if it started tomorrow and we are on the Koch kill motion and the following list will be before us right after the initial prayer, roll call, corrections to the Journal, notices, reports and announcements, and Senator Stoney, Senator Kelly, Senator Maresh, Senator Johnson, Senator Reutzel, Senator Clark, Senator Koch, in that order. So with those comments then, let's see. Excuse me, go ahead, Mr. Clerk.

CLERK: Mr. President, your committee on Public Works whose Chairman is Senator Kremer to whom we referred LB 287 instructs me to report the same back to the Legislature with the recommendation it be advanced to General File with amendments.

SPEAKER MARVEL: Any other business? I would remind you as you ponder what has been discussed today and as you go to your committee assignments to take a look at the Board designated General File. Senator Carsten, would you like to make a motion that we adjourn until tomorrow at nine o'clock.

SENATOR CARSTEN: Mr. President, members of the Legislature, I move we adjourn until tomorrow at nine o'clock, February 5.

SPEAKER MARVEL: All those in favor say aye, opposed no. Motion carried. We are adjourned until nine o'clock tomorrow.
