LR 17

I would suggest that members of the Legislature who are interested in the activities of the Council of State Governments find occasion today to visit with Mary Jane. She is also working with Senator Robert Clark who is a distinguished member of this Legislature and in charge of the July 12th state conference in Omaha, right? We are ready for #5 on motions. On page 654, Senator Newell isn't here yet, on page 654, let me give you the page numbers of the four items and then we will proceed. LR 1 is on page 591 of the Journal. LR 17 is on page 654. LR 19 is on page 703. And Senator Koch's motion on LB 126 is on 728. 591, 654, 703, and 728. Senator Koch, are you ready to take up LR 17? The Clerk will read the resolution.

CLERK: Mr. President, LR 17. Read.

SPEAKER MARVEL: Senator Koch.

SENATOR KOCH: Mr. Speaker, this outstanding individual is in Senator Sieck's District and I yield to him for remarks that he may want to make.

SPEAKER MARVEL: Senator Sieck.

SENATOR SIECK: Mr. Speaker and members of the Legislature, Arvon Engel is a very intelligent person when it comes to energy. If anyone in this room would want to know more about energy and what it can do and what he has in mind, I would sure want you to listen to him. I was told that someone at the University here had made a program on what is happening to our energy and they compared it to Arvon Engel from Utica Centennial High and Arvon Engel had him beat all hollow. So you can see we have some real good individuals out in my District and I appreciate what he has done in the Utica Centennial School and for the community at large.

SPEAKER MARVEL: Any other comments? Senator Koch, do you wish to close?

SENATOR KOCH: Only, Mr. Speaker, to say that it is individuals like Mr. Engel who not only labor in the area of education and perform in an outstanding fashion but I had the privilege of attending that luncheon. This individual is engaged in that community in every endeavor from the Chamber of Commerce to all kinds of civic clubs to constant work with young children. So, occasionally when you hear negative remarks about public education, I think it is only proper that we identify individuals such as Mr. Engel who
