LB 344

sacred, Senator Kremer, than the body which some people think is like a holy or sacred temple? The ground on which you walk, the ground which was made for you has more sacredness than he or she who walks upon that ground. It is difficult for me to put these things together and understand what is being done here. Senator DeCamp, I wanted to give you a chance to get back. You indicated that there was something I said that you might want to respond to so my question would be what that is in order not to cut you off?

SENATOR DeCAMP: Would you be willing to work as a bouncer?

SENATOR CHAMBERS: Senator DeCamp, you make the point right and we will discuss that because if you know human nature you can often funnel off hostile attitudes without having to get hostile or physical yourself.

SPEAKER MARVEL: One minute. Senator Fitzgerald, do you wish to be recognized?

SENATOR FITZGERALD: Mr. Speaker and members, would John DeCamp yield to a few questions?

SPEAKER MARVEL: Senator DeCamp.

SENATOR DeCAMP: Hey, this isn't my bill, I mean...

SENATOR FITZGERALD: Well, John, you are so knowledgeable about everything I just thought I would ask you these questions. John, can a person smoke at home with this bill?

SENATOR DeCAMP: I would assume they could smoke at home, yes.

SENATOR FITZGERALD: How was the Sports Complex built? How was that funded? John, do you know? Were you down here...?

SENATOR DeCAMP: We had the cigarette tax for that. The more you smoked the bigger the bricks were.

SENATOR FITZGERALD: Now these people that paid for this sports complex...

SENATOR DeCAMP: You can't smoke in there.

SENATOR FITZGERALD: ..Can they smoke in there?

SENATOR DeCAMP: No, if you paid for it you don't get to smoke in there now. The State Fire Marshal ordered that, right, safety precautions.
