identical level this year with no increase, if you put in even a capital construction figure at a level that I have been advocating, if you assume only a 7% increase in state employees salaries and you add to that the six and a half million that this bill will cost next year as I understand it, you will have exceeded by at least \$10,000,000 available receipts. In all probability without question we have exceeded 7% limitation...

Senator Lewis, for example, indicates that we are trying to finesse something. Well if it takes Senator Lewis more than four years to figure out this is the way it has been introduced for four years, maybe he thinks we are trying to finesse it but, Senator Lewis, it has been introduced this way for four years in exactly the same form.
