LB 321

The motion before the House is, shall debate cease? Clerk record.

CLERK: 26 ayes, 1 nay to cease debate, Mr. President.

SPEAKER MARVEL: The motion is carried. Debate is ceased. The Chair recognizes Senator Venditte to close on his motion in regard to LB 321.

SENATOR VENDITTE: Speaker Marvel and members of the Legislature, I read Senator Keyes' lips and he said, I'd like to ask you a question oh five or so minutes ago. He didn't get that chance. Is he still in the chambers? Senator Keyes, did you still want to ask that question on my closing time? I will allow you to ask that question.

SENATOR KEYES: Senator Venditte, I wanted to know where is this....what street is this on, this bale fill?

SENATOR VENDITTE: Well, if most of you know where St. Joe's Hospital is....

SENATOR KEYES: Yes.

SENATOR VENDITTE:it's just east of St. Joe's, two blocks.

SENATOR KEYES: Well, Senator Venditte, I've got news for you. I would insist on bringing this bill back. When a man has the Ace he usually waits for the right time to play it. You played it at the right time. If Senator DeCamp and Senator Schmit wish to bring this bill, pass this bill on you've lost the use of your Ace. You've got the best thing...go for it.

SENATOR VENDITTE: Mr. Speaker again and members of the Legislature, just to reiterate a couple of things that Senator Goodrich had said earlier in his comments in that he said that we are not going about it correctly. Well, ever since the operation began several years ago in the City of Omaha, it has not gone correctly. You know they promised the people living in southeast Omaha that there would never ever come a day where we would have trucks coming through the neighborhoods. Well just within the last six months they have said that the cost of ralling the garbage in was prohibitive...they're going to have to come by trucks. They can't afford the rail spur anymore. That is confirmed. The truck route has been confirmed and they are going to be spending close to one million...close to
