

April 30, 1979

LB 586

of work in this office and I think that is unfair, and I think that it is wrong.

SPEAKER MARVEL: The motion is the Newell amendment to LB 586. I would remind you again that we have a two hour limit on these bills. We are not making substantial process at the moment. All those in favor of the Newell amendment vote aye, opposed vote no. Have you all voted? Have you all voted? Senator Newell, what do you wish to do?

SENATOR NEWELL: Let it go.

SPEAKER MARVEL: Record the vote.

CLERK: 11 ayes, 15 nays, Mr. President.

SPEAKER MARVEL: Motion lost. Amendment is not adopted. Are there other amendments on the bill?

CLERK: Yes, sir, Mr. President. Senator DeCamp moves to strike \$100,000 from program 516 in Section 15 of LB 586. It is offered by Senator DeCamp.

SPEAKER MARVEL: Chair recognizes Senator DeCamp.

SENATOR DE CAMP: Mr. President, members of the Legislature, just an attempt to develop a little economy and maybe recognize that maybe government can shift from one phase to another. As you know we have got a bill on gasohol building plants working with the Department of Economic Development. Now, about eight years ago we created this commission and we funded them and got them on their research and this kind of thing. Now as we shift over the Department of Economic Development existing government structure I think that we should phase down the other one so that all this does is phase down to a substantially less than it is now, the industrial products utilization commission so that they can do their function still but they won't have the forefront running as they have had in the past and in the development of the plants as in the other legislation it would go that way. So, I would urge adoption of the amendment, saves a few dollars and does show that government can be responsible in phasing down something that they started one year. I would hope that you would support it.

SPEAKER MARVEL: Chair recognizes Senator Schmit.

SENATOR SCHMIT: I wish that Senator DeCamp would go get back by his microphone and answer some questions for a change. You have to watch him pretty close because you never know
