LB 444

we have enunciated rights and those rights go unrecognized or trampled upon, the court can shape the remedy. In the end, if that remedy is not acknowledged by the political subdivision, they go to district court for a contempt citation to enforce the order of the court. This is not unusual in administrative law. Thank you.

SPEAKER MARVEL: Time is up. Senator Brennan.

SENATOR BRENNAN: Mr. President, members of the Legislature, this is really no longer my bill. It has been shaped and reshaped. As far as Senator Kelly's problems with the bill, with the amendment, the only reason that this amendment was not in my bill in the first place was because of the thought that it wasn't needed. Now this was set up by the rules of the court, this procedure, and the Supreme Court had affirmed it in two or three occasions. So we didn't think it was necessary to clutter up this bill with this amendment. Now as far as establishing a permanent court or as a court rather than an administrative agency, the original LB 444 would have done just that and this was turned down by the committee. If Senator Kelly wants to read the latest edict of the Supreme Court, he will find that Judge Krivosha lent more credence to this being a court than LB 444 in its original form would have because this is the first time I can remember when the Supreme Court has confirmed the constitutionality of the court. I think Senator Kelly and Murphy's fears are both unfounded. Thank you.

SPEAKER MARVEL: Senator Cope.

SENATOR COPE: Mr. President and members, a question of Senator DeCamp.

SENATOR DeCAMP: Yes.

SENATOR COPE: Senator DeCamp, I understood in your explanation that you were circumventing the district court and going to Supreme Court, is that correct?

SENATOR DeCAMP: I am doing what?

SENATOR COPE: I understood that you were circumventing the district court and going directly, the appeal of a Court of Industrial Relations, their decision would go to the Supreme Court.

SENATOR DeCAMP: No. Johnny D. ain't doing that I don't think.
