SPEAKER MARVEL: All in favor of that motion say aye. Opposed no. The motion carried. The bill is advanced. Thank you, Senator Wesely. On the thirty minute sheet we will pass over 172 until Thursday morning. Senator Cullan, do you wish to be recognized?

SENATOR CULLAN: Yes, Mr. President, and members of the Legislature, I was prepared to take up LB 172 today but some individuals from the Legislature desired to have a little additional time to hopefully work out some agreements, and I decided that perhaps that would be in the best interests of the Legislature. I'm glad to allow that to be passed over, and I would not object to it. We did distribute earlier some amendments to LB 172. Those are the five amendments that I think... five of the amendments which I think are important and I would ask you to look those over. If you have questions on any of those amendments, feel free to contact Gina Dunning some time tomorrow before Thursday in the fiscal analyst's office. I also distributed...was responsible for distributing the Nebraska State Health Plan and State Medical Facilities Plan. This was...reference was made to this plan and in fact it was adopted as rules and regulations on General File, and you can scan that if you like. If you have no desire to look over the State Health Plan, simply leave it on your desk and I'll have the Pages pick it up this evening. So if you leave it on your desk, the Pages will pick it up and return them to save some printing costs. I did want to mention that on the State Health Plan, and we will discuss that again later when
