

May 2, 1979

LB 594

I rise to support the Lewis amendment because I think that if indeed we are going to cry and talk about cutting back in capital construction, we should not focus in on one or two communities as Senator Haberman seems to be doing but we should look at those projects that have a broad long term cost and that is what Senator Lewis has, so I think for that reason Senator Lewis' amendment is meritorious and should be added to the Haberman amendment and as I understand Senator Haberman has accepted that so I appreciate his kind of open-mindedness in this area. I also support the Lewis amendment because I know how much Senator Lewis loves that chiller and I know that he would very much want to see that put back in. Now yesterday I didn't support Senator Lewis' effort but I think that he should be given another chance with that chiller because I know that is one of his favorite projects, that he loves it, that he has become very interested in it and I certainly think that that chiller should be thrown into this whole package because Senator Lewis loves it so dearly, so I support his amendment to the Haberman amendment.

SPEAKER MARVEL: Before we go to the next speaker, in the South balcony from Senator DeCamp's district it is my pleasure to introduce twenty-seven fifth and sixth grade students from the Elgin School, Elgin, Nebraska, Dwaine Uttecht the teacher. Where are you located? Hold up your hands so we can see. Welcome. Senator Clark.

SENATOR CLARK: Mr. Speaker, I would like to ask Senator Warner a question.

SPEAKER MARVEL: Senator Warner.

SENATOR CLARK: Senator Warner, in Senator Haberman's amendment, would you consider that a divisible question? On Senator Haberman's amendment, would you consider that a divisible question?

SENATOR WARNER: Yes. Any...

SENATOR CLARK: Mr. Speaker, I would ask to have the question divided so we could vote on these separately.

SPEAKER MARVEL: Well now if I understand your question correctly, Senator Clark, you want to divide what is left of the Lewis-Haberman amendment?

SENATOR CLARK: Whatever is left of that amendment, yes.
