

with funding for railroad safety they are not general tax... general railroad tax statutes. Further, under Rule 7, Section 3D, no motion, proposition or subject different from that under consideration shall be amended...shall be admitted under the color of amendment. I would also point to an earlier ruling by the Chair earlier this session with respect to LB 112, when Senator Kremer attempted to attach some fertilizer amendments to a truck bill. At that point and time I raised a point of order and the presiding officer said, and I quote, "After due consideration we find that the bill goes to Chapter 39, the amendments go to Chapter 60, therefore the Chair rules that the amendments are not germane and therefore are out of order." I would also point out that with respect to this particular bill the same situation arises where the amendments to LB 103 and 105 are in a completely different chapter than is LB 42. With that point of order I would ask the Chair to declare that Senator Chambers, or Senator Haberman's amendments are not germane.

PRESIDENT: I will listen to an argument on the part of Senator Haberman in response to your argument and then I will rule Senator Cullan.

SENATOR CULLAN: For the Chair's information I would point out that the amendments to LB 42 are in Chapter 77 and....

PRESIDENT: Yes, I have them before me. Thank you Senator Cullan. I have them before me. Senator Haberman, do you wish to respond in any way to the...

SENATOR HABERMAN: Yes, Mr. President, I wish to give my time to Senator DeCamp to respond to this as I am not quick enough on my feet to answer Sam Cullan and I think that Senator DeCamp is.

PRESIDENT: Well somebody. I am just giving somebody a chance to respond. Because I am going to make a ruling. Senator DeCamp.

SENATOR DE CAMP: Well the caped crusader is caught off guard. Certainly Sam raises some interesting points. Some compellingly strong points. I had kind of hoped that he wouldn't catch them. As I understand it Sam you are saying that it is in a different Chapter, right?

SENATOR CULLAN: Senator DeCamp it is obviously a different Chapter and obviously a totally different subject.
