SENATOR DWORAK: Mr. Speaker I am speaking specifically
to how that amount of money is going to be used. We are
talking from $10,000 to $50,000 to $75,000 and I think
that it is proper at this time that we determine why we
need this amount of money.

PRESIDENT: All right, I'll....

SENATOR DOWRAK: I'll yield to your correction because I
think that I have not gotten my answer.

PRESIDENT: All right.

SENATOR DWORAK: I have not been told yet why this is needed
and therefore I am going to conclude that this A bill should
stay and should not move until we decide what we are going to
do with the major bill.

PRESIDENT: Senator Venditte, would you care to try one more
time to answer....

SENATOR DOWRAK: No, I have my answer and I'm taking the rest
of my time now. Thank you Mr. President.

PRESIDENT: All right, proceed Senator Dworak.

SENATOR DOWRAK: I think that the A bill ought to stay just
where it is and I don't think we ought to advance it until
we get the, until we talk about the bill and determine why
specifically we need to make this kind of an expenditure.
I'm not so sure that this isn't going to open the door to
all kinds of similar subsequent expenditures where our State
Department of Health is going to get involved in a lot of
areas, whether I don't know whether we should let them get
involved in or not. So, I think that this ought to stay just
where it is until these questions are answered.

PRESIDENT: Chair recognizes Senator Kelly.

SENATOR KELLY: Mr. President, members of the Nebraska Legis-
lature. Very brief remarks and I want to yield my time to
Senator Labedz. Senator Dworak, the Health Department in this
laetrile situation would be using some public money, in their
opinion, to do some testing for public health. This is a
standard appropriation into the Health Department many, many
times and I'll give you one example through the University
of Nebraska. The general fund money going for swine testing.
It is for public health as this law would call for so obviously
the Health Department would be handling that money. But, I
