way around it and I'm going to tell you what it is now because I'll be one of those using it...you just take a bill and you put Chapter 10 relating to Banking or whatever you want. The bill comes in. The public doesn't know what is in it, and you just keep stacking it with whatever you want, maybe ten, twenty, thirty, fifty ideas, anything dealing with that chapter. That is what is going to develop if you start playing these kind of games. Now the simple truth, the simple solution to the problem is you go out and the next time somebody says, how come you introduce so many bills, you tell them about our Constitution and how it is for their protection and how our system works. That's what you do. Just be honest with them and explain it. To explain it you have to understand it and that's all I've tried to do is tell you how our system works and is unique in Nebraska. That's why we have a lot of bills. That's for the public's protection. I urge you to reject any of these proposals.
