

SPEAKER MARVEL: Senator Dworak.

SENATOR DWORAK: Mr. President, I also request unanimous consent that my name be added to that resolution. Even though politically Senator Brennan and I found ourselves on opposite sides of many issues I considered him one of my best friends and before he was elected to the Unicameral I consulted with him quite frequently. I certainly want to extend my sympathy to his family and all of his relatives and friends.

SPEAKER MARVEL: Senator Landis and then Senator Burrows.

SENATOR LANDIS: Mr. Speaker, members of the legislature, I hope that this moment doesn't pass without each of us thinking about Bill Brennan for a moment in our own ways. I know that we are busy with a lot of things to do today but as a member of this body for a short term, I have a lot of fondness in my recollections of Bill. We sat close to each other in the Business and Labor Committee and he had a very gruff way about him, but I learned to appreciate that and I also learned something that first year certainly more from his example than others, but from others as well, and that is that ideology and the belief that things can get better and should get better for people is not restricted to the young. I found him a very inspiring fellow to work with. I wanted that as part of the record.

SPEAKER MARVEL: Senator Burrows.

SENATOR BURROWS: Mr. Chairman, members of the body. I also want my name added to this list. I had a tremendous respect for Bill Brennan and I would like to add a compliment along with his great contributions politically and in the labor movement of the state, his willingness and sincere help and willingness to want to see agriculture helped in the state as well. I think that he made a tremendous contribution in molding a relationship that was better than before with agriculture and labor in the State of Nebraska. I will certainly miss Bill Brennan as a personal friend and a person that I truly respected. Thank you.

SPEAKER MARVEL: Senator Fitzgerald, do you wish to be recognized?

SENATOR FITZGERALD: Mr. Chairman and members, I date back with Bill Brennan in grade school, high school and I went all through school with Bill two years ahead of him. I loved Bill Brennan, I worked with Bill Brennan in labor committees over the years. Bill to me was one of the greatest persons on labor conditions, knowledgeable about labor and worked more for the working man as any senator down here in the period that I have been down here. I would like to add my name to the list. We were going
