LB 790A

are providing?

SENATOR DeCAMP: No, I think that is what this money is, isn't it?

SENATOR SCHMIT: I don't believe this covers it all.

SENATOR DeCAMP: I will sure check it out.

SENATOR SCHMIT: Could you check it out, John, before we move the bill, or do you want to move the bill anyway?

SENATOR DeCAMP: Well, we don't want the main bill to get separated from its twin, so we would want to keep the bills there. Senator Fowler has some amendments for the other bill on Select File anyway, so I am sure this will come up at that time.

SENATOR SCHMIT: We might get the information a little more rapidly if we kept this bill where it is at though wouldn't we?

SENATOR DeCAMP: I don't know.

SENATOR SCHMIT: Okay, thank you, Mr. President. Thank you, Senator DeCamp.

SPEAKER MARVEL: Senator Kahle, do you wish to be recognized?

SENATOR KAHLE: Mr. Speaker and members, I also have concerns as to really what we are doing here, and Senator DeCamp, do you have any more good information you could give us? Isn't there a training program now of some sorts?

SENATOR DeCAMP: I think there is a.....training program for whom?

SENATOR KAHLE: The county attorneys. I don't know whether it is self-imposed or what. I had the idea that they met as a group or in at least areas of the state to discuss their mutual problems that they had as being a county attorney. The way they explain it to me and maybe I am helping them more than I am questioning, is that there is a little bit of difference and you as an attorney may be able to help me answer this, there are some things that come up in the duties of a county attorney that are somewhat different than having a private practice.
