LB 693

SENATOR DeCAMP: You don't want to wait a day to do it.

SENATOR CLARK: I would just as soon do it now, I mean it is so simple that...

SENATOR DeCAMP: Okay.

SPEAKER MARVEL: Senator Keyes.

SENATOR KEYES: Well, Mr. Speaker, when you start talking about saving two million dollars, I want to find out how my good friend, Senator Clark, is going to save two million dollars on issuing a fee. How much do we get out of the fee now?

SENATOR CLARK: Out of what?

SENATOR KEYES: What does the...where are we going to save the two million dollars? How is that going to come about?

SENATOR CLARK: Well, the state is responsible for the license plates out of general fund.

SENATOR KEYES: That costs how much?

SENATOR CLARK: None of the money comes back for the general fund.

SENATOR KEYES: Where does that money...how much does it cost to make a plate?

SENATOR CLARK: How much does it cost to what?

SENATOR KEYES: Yes...make a plate.

SENATOR CLARK: About 70 cents apiece.

SENATOR KEYES: How many plates do we have? How many cars do we have in Nebraska and how many plates?

SENATOR CLARK: You've got to figure there....I could guess at it, but it would be a figure. About a million and a half.

SENATOR KEYES: Million and a half.

SENATOR CLARK: I would be guessing.

SENATOR KEYES: And you are going from six years which... divided into six would be one-sixth of that and you are
