

March 18, 1980

LB 486

meetings to, and get some dollar amounts, so that we can see the impacts of this piece of legislation.

PRESIDENT: Time is up, Senator Dworak. The Chair recognizes Senator Lamb.

SENATOR LAMB: Mr. President, members of the Legislature, I guess basically I echo the remarks of Senator Dworak. Previously I have personally had gotten printouts of the effect of various formulas in regard to state aid from the Department of Education and I'll have to admit I was a little bit late in checking that out this time, assuming that the committee was working in that area and would have that information but at this point my inquiries to the department and to our own research department is that that information is not available and I would certainly urge that the information be made available before we consider this bill and pass it off General File.

PRESIDENT: The Chair recognizes Senator Clark,

SENATOR CLARK: Mr. President, members, I would like to ask Senator Koch some questions if I could, please.

PRESIDENT: Senator Koch, will you respond?

SENATOR KOCH: Yes, sir.

SENATOR CLARK: Senator Koch, how much does this actually add to state aid?

SENATOR KOCH: Would you repeat that, Senator Clark? I didn't hear it.

SENATOR CLARK: How much does this actually add to the state aid that we are putting out now?

SENATOR KOCH: Senator Clark, right now we are not talking about how much we are going to add. We are talking about the \$55,000,000 and assuming we are going to have that at least.

SENATOR CLARK: But wouldn't this add more if it is mandatory?

SENATOR KOCH: We are asking that if this bill is to become sort of a whole harmless bill so that no one loses, we are looking at somewhere in the neighborhood of eleven or twelve million dollars.

SENATOR CLARK: Yes, that is fine but it looks to me like it is going to take more for state aid than that amount of money
