

to? The bill that just came out of your committee that has strong opposition in terms of the bank credit cards? I suggest not. There is no bill that we can attach this to and guaranteed that it will be passed. So I would say that this is the bill to do it. This was the bill that was placed at the first time. I admitted to this body I made a mistake. I think that is unfortunate, however, it is not fair to penalize the citizens of Nebraska because some dumb bunny representing the 31st District made an error. Those things do happen. I admit to making the mistake but, John, maybe even once down here you made a mistake. I know that doesn't seem hardly possible but maybe it happened, not in my lifetime but maybe it happened. I don't understand what the all fired rush is in LB 308. I know that there is a need for it but what I am saying, two days, and that is what we are talking about. This amendment can be adopted today. The bill can be put on Final Reading on Thursday. Two days delay is not unreasonable. If there is legitimate reason which Senator DeCamp has not presented to this body then I can understand it. Finally, Senator DeCamp says, I don't really think the amendment does anything. Senator DeCamp, I often side with you but in this case I will take the opinion of Barry Lake over you. I have the letter and it is being xeroxed around and by the time it gets to your desk we will already have voted on my motion but Barry Lake whose opinion I would respect says that in cases this amendment is needed. The amendment was stricken inadvertently. The body adopted it without any opposition. It seems to me that if we truly care about the citizens of Nebraska we want to make sure that they will not be paying higher interest rates on loans already consumed. I say again in a matter of repetition but I think it is one that needs to be made, what difference does two days make on this bill? What difference is it going to make whether we leave the bill in the final form that we already passed today or bring this bill back and adopt the amendments? I would suggest that there is none. While I realize that there is an importance in having this bill passed as part of the three banking bill package I would suggest that the two days' delay is not going to affect Brandeis. It is not going to affect Montgomery Wards'. It is not going to affect J.C. Penney. It is not going to affect any retailer. I can see no reason that Senator DeCamp has brought forth before this body in terms of why we could not adopt this amendment and then have the bill be voted on on Final Reading. By this time you should have received the copy from Barry Lake and again it says that the amendment does do something, Senator DeCamp, and you can't guarantee that it doesn't. It, in fact, is needed and this is the place to do it, not some other bill which may come across the
