

those, such a facility is \$22,000 for funding operation which represents a three month, four month period. The Department of Roads is in here. The only change of significance is...in terms of general funds is \$50,000 for the federal surplus property program and secondly there is \$217,000 increase in general fund appropriation for mass transit. Authorities..... Department of Veterans Affairs Operations is a, is a continuation budget. The Department of Water Resources is a continuation budget. There are funds for the fourth year of the streamgauging program of \$24,000 which was started four years ago, has one more year to run although they probably will not require additional ones then. Military Department is essentially a continuation budget. There is \$75,000 for some preventative maintenance and one additional individual to assist with state-federal disaster assistance programs. The Board of Education Lands and Funds is included in here. The only general fund money that they receive is for the operation of the state surveyor. The Game and Park Commission, our recommendation, if you are looking at comparisons between the Governor and the committee recommendation, it appears to be different than what it is. Included in our recommendation is \$900,000 for. . . .reflected in the book is \$900,000, it appears in the A bill though, \$900,000 for Parks, but I'll deal with that in the A bill. The other increases either reflect additional temporary help at the various state recreational areas, some equipment an Ak-Sar-Ben Aquarium, there is an increase in the program, \$70,000 for non-game endangered species activities and this is by and large a couple of biologists and necessary operative expenses to go with that activity. The Library Commission essentially is a continuation budget. The Liquor Control Commission is a continuation budget, little increase fund for travel over and above committee policy because obviously they do need to travel. Workmens Comp is purely a continuation. The Commission of Status of Women, the committee has a couple of additions for contractual research and workshops in the amount of \$15,300 together with an additional typist within the office at \$8,000. The Department of Corrections has a number of increases. Those increases either reflect the new facilities that are coming on board, the necessary people to be employed for those, or the increases that reflects recommendations on the part of various correctional improvement programs. The Department of Educational Television, ETV there is a \$55,000 increase over committee policies for the cost of the inner-connect telephone connections for their national programs. There is the other half of the Nebraska Heritage Series, as I indicated earlier, that was in the Department of Education. There is an amount for some programming and post-secondary instructional television. There is one thing that I should point out about ETV. There is
