come back and without this facility and the adjoining facility with it is going to be hard to do. I ask you again, Senator Johnson, have you looked at the teaching staff in Omaha and where many of those instructors, highly recognized, not only in the state but in the nation where they graduated from? Peru. Outstanding people we turn out at Peru for the State of Nebraska and neighboring states and here you are wanting to cut us out. Actually the amendment, and I don't think that Senator Johnson phrased it quite correctly. It seems to me we are
